Re: Termination of Campaign Committees

Records at the Secretary of State's office indicate that you either have terminated your campaign committee(s) established for election to state office, or you never formed one. In the event that those records are incorrect and you still have an open committee established for a state election, this memo is being sent to advise you of a new committee termination requirement.

The Fair Political Practices Commission recently adopted regulation 18404.1 (copy enclosed). This regulation, among other things, requires candidates defeated in state elections that were held between January 1, 2001 and February 15, 2002, to terminate their committees established for these elections by the following dates: November 15, 2002, if the committee has no net debts outstanding, or February 15, 2004, if the committee has net debts outstanding.

If you have any questions regarding your termination requirements, please see the enclosed information sheet or contact Trish Mayer at (916) 322-8210.
